

Sustainability skills entrepreneurial mind set to foster migrant women employability and upskilling possibilities

NEWSLETTER #6

LOCAL ACTIVITIES ARE CARRIED OUT

Local activities are carried out in collaboration with various institutions for each partner country. The project outcomes are utilized for the education of immigrant women in the collaborating institutions.

PILOT TESTING WITH WOMEN

The local piloting program, which took place with migrant women participants in partner organizations, has been completed. Participants showcased their skills and qualifications using the EU Skills Profile tool, facilitating their recognition. The content covered topics such as job search, interviews, resume writing, negotiation, SWOT analysis, body language, confidence-building, strategic planning, networking, and conflict resolution.
