**Sustainability skills entrepreneurial mind
set to foster migrant women employability
and upskilling possibilities**

Newsletter #7

We have some
important
announcements!

NEXT UP: MULTIPLIER EVENTS! DON'T MISS OUT!

We have reached the outcomes with the STEP UP Manual and Guidebook we prepared to support the integration of migrant women into the workforce, enhance their job skills, and increase their access to lifelong learning opportunities. Now, our partner organizations in Sweden, Germany, Greece, Türkiye, and Italy will organize multiplier events to disseminate project results locally and reach more people.

If you are part of the target audience, such as migrant women, educators, employers, or civil society organizations, if you work with these groups, or if you are simply interested in the project's outcomes, do not miss these events. Reach out to partner organisations and learn more about Multiplier Events.

Follow us on Facebook for the updates and announcements.
